**7-9 September**  
**Genova Italy**

### CALL FOR Special Sessions Proposals

The **SysInt 2022 conference** ([sysint-conference.org](http://sysint-conference.org)) technical program will include Special Sessions. Their objective is to complement the regular program with new or emerging topics that are of particular interest to the SysInt community. Typically, each Special Session comprises up to 5 presentations of 15 minutes each.

**Prospective organizers of Special Sessions should submit proposals indicating:**

- **Title of the session**
- **Rationale of the need for the Special Session at SysInt; the rationale should stress the novelty of the topic and/or its multidisciplinary features (if any).**
- **Short biography of the organizers**
- **List of at least five (5) contributed papers (including titles, authors, contact information of the corresponding author, and a short abstract of each contribution).**

Proposals will be evaluated based on the timeliness of the topic, and the qualifications of organizers and contributors.

After Special Session proposals are approved, manuscripts should be submitted to the special sessions and should conform to the formatting and electronic submission guidelines of regular SysInt papers. Papers will undergo the same review process as regular papers. If, at the end of the review process, fewer than three (3) papers are accepted, the session will be cancelled and the accepted papers will be moved to regular sessions. Proposals should be sent via e-mail (in PDF format) to the Special Sessions chair by the 1<sup>st</sup> of March, 2022.
